SUMMARY

Odoo and Python developer shipping production ERP workflows — payroll and labor costing, HR requests and clearance, expense/petty-cash ops, and mobile/hub APIs. Also builds full products end to end (notably Lann Pya: Odoo backend + Next.js front end).

PROFESSIONAL EXPERIENCE

Developer
Feb 2026 — Present

El Race Cons. & Gen. Cont. Co. LLC · Al Ain · On-site

- Build and extend production Odoo ERP: payroll and labor costing, HR requests and clearance, IT hardware workflows.
- Improve ops-finance flows for petty cash batches, expense approvals, and project/city governance.
- Maintain a centralized mobile and hub API layer (auth, HR/projects/requests) with consistent REST responses.

Developer
Jul 2025 — Jan 2026

Rons Enviro Care LLC · Ras Al Khor · On-site

- Full-time development supporting business systems and operational tooling.
- Contribute across data analysis and project delivery for day-to-day process needs.

Odoo Developer
Sep 2022 — Apr 2024

Myanmar Information Technology

- Developed and customized Odoo modules for workshop fleet and hotel management.
- Built backend logic with Python, Django, and PostgreSQL; reports via XML, JavaScript, and QWeb.

Developer Intern
Jul 2022 — Aug 2022

Myanmar Information Technology

- Customized Odoo modules for client needs; supported features, fixes, documentation, and Python delivery.

IT Support Specialist
Feb 2021 — May 2022

Kangle (Kyan Sit Min)

- Provided hardware, software, and network support; assisted marketing with digital tools.

SELECTED WORK

- Lann Pya (lannpya.site) — Odoo + Next.js guides platform for Myanmar youth in the UAE.
- Enterprise Odoo — payroll & labor costing, HR requests & clearance, petty cash/expense ops, mobile/hub APIs (private).
- HR Ops Suite — Odoo 18 Apps Store module; public source on GitHub.
